REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The original rejection as a statutory double patenting rejection was in error. After review of the claims, it was obvious that this was at best an obvious double patenting situation. The claims of the other two applications require a catheter to provide the drug in the independent claims. This limitation is not found in the instant application. So at most, the invention would have been obvious given that the energy gradient used to move the drug is the same. Applicant's filing of a terminal disclaimer would therefore overcome the rejection under the judicially created doctrine of obvious-type double patenting. The instant claims are therefore allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos A. Azpuru whose telephone number is (571) 272-0588. The examiner can normally be reached on Tu-Fri, 6:30 am - 5:00 pm.
